

POLYMER BASE CEMENTITIOUS WATERPROOF TILE ADHESIVE

DESCRIPTION

ROKSO FIXOBON WPT is a grey powder which consists of blend of portland cements, special cements, polymers and fillers.

ADVANTAGES

No soaking of tiles required. Tiles can go directly from box to the wall minimising breakages during soaking and extra labour.

Unmatched Vertical Adhesion strength upto 8 Feet.

No curing is required as **ROKSO FIXOBON WPT** Adhesive paste is self curing type.

Surface to be tiled does not need hacking or mechanical key as **ROKSO FIXOBON WPT** Adhesive can be applied on smooth plastered surface also.

ROKSO FIXOBON WPT Adhesive waterproofs the tiled surface.

APPLICATION

Mix the powder and water in the volumetric proportion of 2.5 to 3 volumes of powder to one volume of water. Thoroughly mix to form a creamy paste. Apply this paste behind the tile or on the surface to be tiled and press the tile in position as thin as 3mm of the adhesive is enough to create a good bond.

COVERAGE

On a smooth even surface **ROKSO FIXOBON WPT** Adhesive gives a coverage of 2 to 3 square feet per kg for 3 mm thickness.

PACKING

ROKSO FIXOBON WPT Adhesive is supplied in 20Kgs.sacks.

SHELF LIFE

6 months in manufacturer's sealed packs.
